BUILT BETTER TO LAST LONGER

So, what makes Honda ATVs and Side x Sides so good?

Near the small town of Timmonsville, USA, is **Honda of South Carolina Manufacturing Inc** (HSC), one of our 14 specialist factories located in North America. Over 650 Honda Associates manufacture and assemble our ATV and Side x Side range at the 615-acre site, with many employees using a Honda for both work and leisure – making the product not just a job, but also a way of life.

Uniquely, all research and product development takes place at either HSC, or at the Honda Car R&D facility in Ohio, where using computer aided modeling and advanced car design software, our engineers have been able to test and improve model features such as rack weights, ride dynamics and ergonomics – producing a lighter, stronger product.

All frames, bodywork, fuel tanks and engine castings are fabricated on-site, and with up to 68 model variations constructed at HSC, nearly every model that comes off the production line differs from the one before. But for each model, the emphasis remains the same, it has to offer **durability**, **quality** and **reliability** with the over-arching principle of safety for all those involved. Our vision has always been to be a company that society wants to exist, even at manufacturing level. It's what drives us to remain a leader in the industry, whilst having a positive impact both globally and locally, from South Carolina to South Wales and everywhere else Hondas are relied upon day in, day out.

QUALITY YOU CAN COUNT ON

Our ATV and Side x Side range are relied upon daily for an almost infinite variety of tasks, by all kinds of users. Like you, they demand complete reliability, unrivalled performance and a solid build. Which is why we offer a 2 year manufacturer's warranty^{*} with all of our ATV and Side x Side models as standard.

Whether you're using it for farming, gamekeeping, forestry, equestrian or snowclearing; your Honda will quickly become an essential part of your daily routine. You'll rely on it in all weathers, on all terrain and for an amazingly wide range of jobs.

So a problem with your new ATV or Side x Side is the last thing you'll want, but with Honda's reputation for reliability, it's also the last thing you can expect.

YOUR HONDA CHOOSING THE RIGHT ATV FOR YOU

You may already know which ATV model is right for you. But if you're still deciding, it's best to consider how your ATV will actually be used. Keeping in mind over what type of terrain, and for what tasks will help you decide which one is best for you. Here's a little more information to help you decide.

CHOOSING YOUR SUSPENSION

Each ATV model in our 2017 range features independent front suspension, but when it comes to the rear suspension there are two types of models to choose from. It's not a matter of one being better than the other, but one may suit your needs a little more than the other.

Swingarm Rear Suspension

An excellent choice for riders looking for a hard-working ATV with plenty of towing capability. A solid locked rear-axle with an optional trailer hitch accessory which bolts directly to the axle housing, means the swingarm design is simple and durable, and has been a proven mainstay of Honda ATVs over the decades.

- Bolts direct to axle housing / Less body squat when towing
- Rigid locked rear axle / Solid tow hitch capability

Independent Rear Suspension (IRS)

A smart choice for ATV riders who spend long days in the saddle, especially on tough or unpredictable terrain. Each wheel moves independently, so you get a smoother ride. As an added bonus each tyre remains in optimal contact with the ground, so in certain circumstances you can get superior traction from the rear wheels.

- Longer travel shock absorption / More comfort & ground clearance
- Improved tow capacity / Pull up to an impressive 600kg*

Note: IRS is standard on all Side x Side models.

* Towing capacity varies by model, please refer to the specifications on page 36-39

Manual

With manual shift gear changes and an automatic clutch mechanism, nothing can match a traditional manual transmission ATV in terms of simplicity. So it makes this an ideal transmission for riders who use their ATVs day in, day out on a variety tasks.

Automatic (AT) Standard on Side x Side models - This effortless three-speed drive system is based on the technology in modern automatic cars, providing seamless acceleration on any terrain

DCT

Optimised to reduce steering effort and kickback through the handlebar, PS offers added comfort and control - ideal for those who spend long hours in the saddle.

CHOOSING YOUR TRANSMISSION

There are four different transmission options to choose from across our ATV range, as well as Power Steering on certain models. All of which have their specific benefits depending on how, and where, you will mostly be using your ATV.

Electric shift program (ESP)

With it's automatic clutch, ESP lets you quickly and easily shift between gears with a pair of handlebar mounted buttons, for added convenience in tough, muddy conditions.

Dual Clutch Transmission (DCT)

Using two clutches, DCT models combine the strength of a manual transmission with the convenience of an automatic. The smooth shifts, excellent control and true engine braking it provides can be a real advantage in technical conditions.

Power Steering (PS)

TRUST THE TRUE ATV & SIDE X SIDE EXPERTS

Call 0845 200 8000⁺ and we'll find your closest Honda Authorised Dealer.

You deserve complete confidence that you've made the right choice, long after you've made the purchase. That's why we appoint our Honda Authorised Dealers with as much care as we build into our products.

SALES

Our Authorised Dealers not only feature a comprehensive display of Honda products to see and touch, but they know our product range inside-out. Every one follows an extensive Honda training programme with regular refresher courses - so you can trust in their valuable advice and experience to help you choose the product that's just right for you.

As well as offering the highest levels of after-sales service. our Authorised Dealers' factory trained technicians perform a full Pre-Delivery Inspection (PDI) on every machine, and are fully equipped to keep your product in peak condition with cost-effective servicing. Of course, you can also be assured that only high quality, genuine Honda parts are used. with access to our next day^{tt} delivery service for fast and efficient turnaround.

Our Authorised Dealers are true experts in their field, often with years of first-hand experience under their belt. In fact, their knowledge and experience plays an important role in making sure that our Research and Development team is given feedback from our customers. so we can ensure that new and improved models continue to meet your future needs too.

+ Charged at local rate from landlines. †† Next day delivery of UK stocked parts, ordered before 5pm

RIDE SAFELY COMPLIMENTARY RIDER TRAINING

At Honda we take rider safety very seriously indeed. Which is why an EASI Rider Course[®] is included with every new Honda ATV or Side x Side at no cost.

Ask your Honda Authorised Dealer to register you for a course. It's worth it as it can gualify in risk assessments for PUWER or HSE requirements!

For commercial users HSE risk assessments may require further training, such as through Lantra, or as part of your tractor loading / towing course.

To ensure you get the most from your Honda safely, we would encourage you to take approved training. Information on basic and advanced training courses is available from EASI.

Call 01273 494128 or visit www.quadsafety.org

ALL CHALLENGES OVERCOME

WITH A HONDA SIDE X SIDE

SIDE x SIDE RANGE

Our NEW Pioneer 700-2 Side x Side is powerful, incredibly versatile and built to tackle the toughest jobs and cover the most demanding terrains.

Drawing upon all of our experience and expertise in designing class-leading ATVs; the Pioneer 700-2 can carry two people - perfect for those times when you need an extra pair of hands on the job. Its 675cc liquid-cooled engine is rubber mounted for less cabin vibration and fuel-injected for all-weather starts. Its tilting cargo bed can carry up to 386kg and its impressive 680kg tow capacity allows you to haul more, go further and get more done whilst offering all of the comfort, fuel-efficiency and build quality you would expect from a Honda.

KEY SPECIFICATION FEATURES:

- Fuel-injected 675cc OHV single-cylinder engine / For all-weather starts
- Independent front & rear suspension / For superior handling and comfort
- Tilt bed with smart hydraulic assist strut / Unload the cargo bed with ease
- Three-speed auto transmissions / Provides true engine braking
- 680kg towing capacity / Makes light work of pulling a heavy load
- 386kg cargo bed capacity / Saving valuable time and effort

Pioneer 700-2 4wd

Three speed **automatic** transmission gives seamless acceleration over any terrain.

Differential Lock provides additional traction in slippery conditions, with the push of a lever.

Independent Rear Suspension (IRS) for improved comfort, traction and load handling capability.

1. FULL CARGO BED

2. ONE REAR SEAT

PIONEER700-4 THE ULTIMATE TEAMWORKER

Built to get those really big jobs done, our NEW Pioneer 700-4 Side x Side can carry up to four people thanks to its industry-exclusive QuickFlip® seating system.

Featuring all of the clever innovation of our 700-2 model (see page 12), the versatile Pioneer 700-4 has the added ability to switch between carrying one passenger with full cargo bed capacity and tipping function - to two or three passengers, depending on the task at hand. Its innovative and durable QuickFlip® rear seats fold flat into the cargo bed independently and pop-up in an instant whenever you need them.

KEY SPECIFICATION FEATURES:

- QuickFlip® Seating / Flip with ease between two, three or four seats
- Fuel-injected 675cc OHV single-cylinder engine / For all-weather starts
- Independent front & rear suspension / For superior handling and comfort
- Tilt bed with smart hydraulic assist strut / Unload the cargo bed with ease
- Three-speed auto transmissions / Provides true engine braking
- 680kg towing capacity / Makes light work of pulling a heavy load
- 386kg cargo bed capacity / Saving valuable time and effort

Pioneer 700-4 4wd

Three speed **automatic** transmission gives seamless acceleration over any terrain.

Differential Lock provides additional traction in slippery conditions, with the push of a lever.

Independent Rear Suspension (IRS) for improved comfort, traction and load handling capability.

ALL GROUND COMPLETED

WITH THE HONDA ATV RANGE

WITH ECONOMICAL PERFORMANCE AND AGILE HANDLING, GETTING THINGS DONE HAS NEVER BEEN EASIER

FOURTRAX250 THE NIMBLE WORKMATE

The easy riding Fourtrax 250 combines agility and economy with the solid build and features found in our larger ATVs.

Whether you're working around the yard or out in the fields, the compact Fourtrax 250 makes light work of everyday tasks and is ideal for carrying out light or medium-duty jobs on flat or undulating land, with capable power and real efficiency delivered by its 229cc engine.

KEY SPECIFICATION FEATURES:

- Longitudinally mounted engine / Delivers smooth power to the rear wheels
- Multi-function LCD display / Provides the driver with key drive information at a glance
- Compact dimensions / Offer light and agile handling
- Sealed hydraulic front drum brakes / Gives progressive stopping power
- Automatic clutch with low engagement point / For fast, easy gear shifting

Fourtrax 250 2wd

2-wheel drive model offering light, responsive and agile handling for everyday tasks.

2.

Manual 5-speed transmission with automatic clutch and low-rpm engagement point for excellent control and towing capability.

Fourtrax 250 ES 2wd

As Fourtrax 250 2wd (above) +

Handlebar mounted Electric Shift Program (ESP) for quick push-button gear selection.

Two wheel drive Fourtrax models are perfectly suited to daily tasks over flatter terrain, with an unbeatable combination of serious capability, light and nimble handling and great efficiency.

Ideal for those who don't need the out-and-out traction of 4wd. This rear-wheel drive Fourtrax offers easy handling, all-weather easy starts and quick acceleration. Its exceptional build, comfortable ride and functional qualities make it an unbeatable work partner out in the field. Its rugged next-generation styling even incorporates an easy access 'no-tools' removable cover for simple maintenance, a beefy 5-speed gearbox and a bigger fuel tank for extended hours in the saddle.

KEY SPECIFICATION FEATURES:

- 420cc fuel injected liquid cooled engine / Delivers both economy and performance
- Longitudinally mounted engine / Delivers smooth power to the rear wheels
- Computer engineered double-cradle chassis / Built for impressive responsiveness
- 190mm hydraulic front disc brakes / Gives progressive stopping power
- Thicker, softer seat cushion / For added comfort during long hours in the saddle
- Multi-function LCD display / Provides the driver with key drive information at a glance

Fourtrax 420 2wd

2-wheel drive model offering light, responsive, and agile handling for everyday tasks.

2.

Manual 5-speed transmission with automatic clutch and low-rpm engagement point for excellent control and towing capability.

Fourtrax 420 ES 2wd

As Fourtrax 420 2wd (above) +

Handlebar mounted Electric Shift Program (ESP) for quick push-button gear selection.

A TRUE, MID-SIZED ALL-ROUNDER WITH CLASS-LEADING POWER & EFFICIENCY

FOURTRAX420 THE UK'S BEST SELLING ATV

Powerful, efficient and compact, with excellent agility and towing capability. Fourtrax 4wd models are perfectly engineered to tackle even the most demanding of conditions.

Optimised with Computer Aided Design (CAD) to deliver best-in-class handing and all day comfort, the versatile Fourtrax 4wd makes daily tasks both easier and more enjoyable. Its rugged utility styling and tough double-cradle chassis offer exceptional pulling power, all-weather easy starts and quick acceleration delivered by a fuel injected, liquid cooled 420cc engine. It also features adjustable pre-load suspension to instil confidence in any terrain, plus a beefy 5 speed gearbox, dual front hydraulic disc brakes and a range of practical features, including quick tool free access to key maintenance points. For simple usability and a rewarding ride, with all the reliability you would expect from a Honda ATV, the Fourtrax 4wd really sets the standard.

KEY SPECIFICATION FEATURES:

- Pre-load adjustable front & rear suspension / Tailor ride to the terrain and conditions
- Large radiator with cooling fan / Optimum engine cooling under heavy workload
- Enhanced body panels / Gives added protection from dirt and debris
- · Reverse parking lever / For intuitive, simplified operation

Fourtrax 420 4wd

Traxlok® allows you to quickly switch between the 'go-anywhere' traction of 4wd and the increased manoeuvrability and lighter steering of 2wd.

Manual 5-speed transmission with automatic clutch and low-rpm engagement point for excellent control and towing capability.

AP Suretrac[™] torgue-sensitive limited-slip differential for extra grip in slippery conditions.

Fourtrax 420 PS 4wd

As Fourtrax 420 (above) +

Power Steering (PS) to greatly reduce steering effort and kickback through the handlebar.

Fourtrax 420 ES 4wd

As Fourtrax 420 +

Handlebar mounted Electric Shift Program (ESP) for quick push-button gear selection.

ENJOY FAST, SMOOTH GEAR CHANGES WITH **DUAL CLUTCH** TRANSMISSION

FOURTRAX420DCT THE ADVANCED MID-SIZE ATV

For simple usability and a rewarding ride, the Fourtrax DCT 4wd models really set the standard with greater fuel efficiency and automatic shifting.

With new levels of rider centred technology, and a powerful yet frugal fuel injected, liquid cooled 420cc OHV engine - the Fourtrax 420 DCT offers outstanding levels of performance, handling and durability. Yet it also ensures exceptional economy, responsive power and easy starts that you can count on in any weather. Our fuel efficient, advanced Dual Clutch Transmission (DCT) has been tried and tested on Honda's market leading motorcycles for many years, allowing riders to quickly shift between gears with smooth ESP control, or opt for an auto-shifting mode. Either way, the Fourtrax 420 DCT delivers fast, efficient transmission to cover even the most challenging land with ease.

KEY SPECIFICATION FEATURES:

- Independent double wishbone front suspension / Adds comfort and aids steering
- Large radiator with cooling fan / Optimum engine cooling under heavy workload
- Intuitive reverse/parking lever / For simplified operation
- Axle mounted heavy duty trailer hitch* / Provides a versatile 385kg towing capacity
- Enhanced body panels / Gives added protection from dirt and debris

*Available on TRX420FA2 only

Fourtrax 420 DCT PS 4wd

Traxlok* allows you to quickly switch between the go-anywhere traction of 4wd and the increased manoeuvrability and lighter steering of 2wd.

Choose between push button ESP or our unique five-speed Dual Clutch auto-transmission for seamless acceleration over any terrain.

AP Suretrac[™] torque-sensing limited-slip differential offering maximum traction.

Power Steering (PS) to greatly reduce steering effort and kickback through the handlebar.

FOREMAN₅₀₀ THE ALL-ROUND WORK HORSE

Big loads, long days - no problem. The Honda Foreman is built to deliver solid handling and powerful performance with renowned durability, whatever the conditions.

With huge low down torque delivered by a fuel efficient liquid cooled 475cc engine, and its computer engineered chassis providing smooth, sure footed handling, the Foreman truly is a joy to ride. Its thick padded saddle makes it easier to tackle a long day out in the field, and the unique Honda TraxLok® allows switchable 2/4wd and push-button full differential lock to give improved traction, even in deep mud.

The PS and IRS models offering reduced steering effort and kickback, or greater ground clearance and shock absorption respectively, allow you to choose a model to suit your particular needs and working environment.

KEY SPECIFICATION FEATURES:

- 475cc liquid-cooled 4-stroke engine / Delivers powerful torque and efficiency
- Oil cooler with cooling fan / Allows for low RPM, high load work
- · Programmed Fuel Injection / Delivers seamless performance even in cold weather
- Wide gear ratios / Gives plenty of pulling power and true engine braking

Foreman IRS PS model only

Foreman 500 All models have the below features:

Traxlok* allows you to quickly switch between tough 4wd and the lighter steering of 2wd.

Manual 5-speed transmission with automatic clutch for excellent control and towing capability.

Differential Lock provides push-button additional traction in slippery conditions.

Preload rear suspension allows the rider to adjust the ride to suit the load, task and conditions.

Foreman 500 PS As Foreman (above) +

Power Steering (PS) to greatly reduce steering effort and kickback through the handlebar.

Foreman 500 IRS PS As Foreman PS (above) +

Independent Rear Suspension (IRS) for improved comfort, traction and load handling capability.

Foreman 500 ES PS As Foreman (top) +

Handlebar mounted Electric Shift Program (ESP) for quick push-button gear selection.

Power Steering (PS) to greatly reduce steering effort and kickback through the handlebar.

FOREMAN₅₀₀ DCT THE POWERFUL 'DO IT ALL' ATV

With long travel independent suspension and huge load carrying capacity, the Foreman DCT models are engineered to be the most comfortable and capable ATVs ever.

Work smarter, not harder with a Foreman DCT. Built around a solid chassis offering class leading handling, and fitted with IRS and pre-load adjustable twin rear shocks (giving 216mm travel), it'll smoothy tackle the toughest terrain. Its powerful engine delivers huge torgue and our Dual Clutch Transmission (DCT) provides smooth shifts and excellent control. Its optimised shift mapping increasing fuel efficiency, while the optional power steering model means you can enjoy hours in the saddle without fatigue.

KEY SPECIFICATION FEATURES:

- High output headlight (with independent on/off switch) / Increased rider visibility
- 475cc liquid cooled twin-spark 4-stroke engine / Increases torque and efficiency
- Pre-load adjustable twin shock absorbers / Provides a smoother, controlled ride
- Thicker, softer seat cushion / Added comfort during long hours in the saddle

Foreman 500 DCT IRS 4wd

2/4

Traxlok* allows you to quickly switch between the go-anywhere traction of 4wd and the increased manoeuvrability and lighter steering of 2wd.

Choose between push button ESP or our unique five-speed Dual Clutch auto-transmission for seamless acceleration over any terrain.

Differential Lock provides push-button additional traction in slippery conditions.

HI LO

Hi/Lo Gear Range selector delivers unparalleled low-down load pulling power - up to 600kg.

Independent Rear Suspension (IRS) for improved comfort, traction and load handling capability.

Foreman 500 DCT IRS PS 4wd

As Foreman DCT IRS (above) +

Power Steering (PS) to greatly reduce steering effort and kickback through the handlebar.

THE HIGH-PERFORMANCE ATV

The Rincon AT combines all the performance and agile handling of a sports ATV, with the efficiency and work capability of a utility machine.

With a twin-spark cylinder head on its 675cc engine, and smooth automatic transmission, the Rincon AT delivers greater torque and up to 30% improvement in fuel efficiency - giving you seamless power, acceleration and sure footed traction over any terrain, with the advantage of true engine braking. Independent suspension (front and rear) and Maxxis tyres ensure the performance is matched with complete control and comfort to help you work easier, for longer. Put simply, the latest Rincon takes everything in its stride.

KEY SPECIFICATION FEATURES:

- 675cc liquid cooled twin-spark 4-stroke engine / Increased torque and efficiency
- Oil cooler with cooling fan / Allows low RPM, high load work
- PGM-FI Fuel Injection / Seamless performance in extreme weather or at high altitude
- Multi-function LCD Display / Providing speed, trip and fuel information at a glance
- · Electric start and 'in gear' start mechanism / Easy starting in any conditions
- A powerful 12v DC outlet / Greater electrical power for running accessories

WORKING LARGE AREAS OF LAND HAS NEVER BEEN EASIER, OR FASTER

Rincon AT 4wd

Traxlok[®] allows you to quickly switch between the go-anywhere traction of 4wd and the increased manoeuvrability and lighter steering of 2wd.

Three speed **automatic** transmission gives seamless acceleration over any terrain.

Handlebar-mounted Electric Shift Program (ESP) gives smooth and quick, push-button gear shifting.

AP Suretrac[™] torque-sensitive limited-slip differential for extra grip in slippery conditions.

Independent Rear Suspension allows the rider to adjust the ride to suit the load, task and conditions.

/ THE SAFE WAY TO LEARN THE SKILLS OF ATV RIDING

SPORTRAX90 THE PERFECT INTRODUCTION

Our smallest model brings all the enjoyment of ATV riding to younger riders[†], yet incorporates the safety and build quality you expect to find on a full-sized Honda ATV.

The 86cc Sportrax 90 is packed with specifically designed features that makes it safer and easier for young riders[†] to learn and develop their riding skills. The ride is pure Honda, just smaller - with nimble and well balanced handling thanks to a sports ATV derived rear swingarm and independent suspension up front. Great touches like key-start ignition, short-reach brake levers and sharp styling will keep any young rider smiling for longer.

KEY SPECIFICATION FEATURES:

- Independent suspension / Improved comfort and control for younger riders
- Short-reach front brake lever / Greater safety for smaller hands
- Automatic clutch / Makes take-off and shifting a breeze
- Tough skid plate and centre mud guards / Gives better protection
- Adjustable throttle limiter / For safer learning

Sportrax 90 2wd

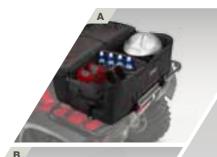

2-wheel drive offering light and responsive handling, perfect for learning to ride.

Manual 4-speed transmission with automatic clutch excellent for young riders to learn gear shifting.

CE

CE certification for European utility ATVs All Honda utility ATVs destined for European markets are CE certified to specific European legislative requirements and to the needs of our customers. The Honda CE mark is clearly shown printed on the Model Year label, affixed to the front vertical frame tube. Only ATVs with frame numbers with CE marking integral to the Model Year label, are covered in the UK under the Honda Manufacturer's 2 Year Warranty. Separate CE stickers anywhere else on the frame tubes, other than printed integral to the Model Year label are unlikely to be genuine, thus should be considered non-CE and a cause for concern. If you have any doubt please have the frame number checked against the Honda UK database to check its origin and compliance to European Legislation. Only a Honda Authorised Dealer can verify the 2 year CE manufacturer's Warranty.

GLOSSARY

Manual Transmission Get full control when manoeuvring

or riding over taxing terrain, with manual shift gear changes and an automatic clutch mechanism.

Electric Shift Program (ESP) Change gears quickly and smoothly, with a simple push of a handlebar mounted button.

Adjustable Preload Suspension

improving comfort and handling.

Tailor the ride to suit the load, riding

conditions and task at hand, greatly

Independent Rear Suspension (IRS)

absorption over tougher terrain, with

an improved tow capacity.

Gives increased comfort, greater ground clearance with longer travel shock

Automatic Transmission Delivering smooth and seamless automatic gear changes, for effortless acceleration over any terrain.

Dual Clutch Transmission (DCT) Our DCT models provide smooth shifts and excellent control by utilising two clutches. When riding, the next gear change is preselected by the second clutch, and ready to go when needed.

Power Steering (PS)

Reduces steering effort and kickback through the handlebar for extended all-day riding comfort, and improved control. The re-mapped ECU also gives greater steering assist at low speed - ideal for lighter riders, or those who enjoy spending long hours in the saddle.

18

2 Wheel Drive Model Offers lighter steering, agile handling with increased manoeuvrability.

2/4

Quickly switch between the nimble manoeuvrability and light steering of 2wd, and the go-anywhere traction of 4wd, with a simple selector lever.

Traxlok[®] (switchable 2/4wd)

Hi/Lo Gear Range Selector

HI LO

Delivers more low-down torque, giving plenty of pulling power for heavy loads.

AP Suretrac[™]

- Delivers torque-sensitive, limited-slip differential for optimum traction in slippery conditions.

Full Differential Lock

Lock the front differential with the push of a button, to drive full power to all wheels - a real benefit in loose or rocky terrain or muddy conditions.

USEFUL TECHNOLOGY

"We only have one future and it will be made of our dreams, if we have the courage to challenge convention "_soichiro honda

Since 1948, when the Honda Motor Corporation was formed, we have lived by this philosophy. Always challenging the status quo, always asking questions, always learning. Today, Honda is the world's largest engine manufacturer, producing innovative and reliable products for almost every application - from lawnmowers to corporate jets. With every product designed to make life more joyful for you and with less impact to the planet. Where will our dreams take us next?

More Honda power equipment

We've harnessed our engineering expertise and design innovation, to create a wide range of class-leading, 4-stroke power equipment products which make your life and livelihood easier, safer and more enjoyable, including:

- · Lawnmowers & Lawn Tractors
- Water Pumps & Generators
- Hedge Trimmers & Tillers
