Model Shown overleaf: Honda e Advance with 17" alloy wheels in Platinum White Pearl at £32,215 On The Road (OTR). Economy & Emissions figures (WLTP) Range: Power consumption in kWh/100 km: combined 17.2-17.8; CO2-emission combined (g/km): 0. Efficiency: A+. The Honda e is a battery electric vehicle requiring mains electricity for charging. Zero emissions while driving. Electric range figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The electric range was determined according to a new test (WLTP). Only compare fuel consumption, CO2 and electric range figures with other cars tested to the same technical procedure. Prices for the Honda e include the Government Plug-in Car Grant discount, worth £2,500 at the current level. The value of this Grant is approved by the Office for Low Emission Vehicles (OLEV). OLEV reserve the right to alter or withdraw the Plug In Car Grant at any time. Any changes in the Plug in Car Grant will be reflected in the overall Honda e price. All figures are correct at time of publication but may be subject to change. Image shown is left-hand drive. Right-hand drive will be released in the UK.
