

HONDA

Cordless Range

When we designed our range of gardening products we looked at your life from every angle.

Everything we learn from everything we do, goes into the development of our lawn and garden products, allowing us to create new technologies and new ways of solving problems. Not only making them the very best they can be, but making them a joy to use and own. So it's not just clever engineering, it's **ENGINEERING FOR** *Life*

Honda Universal Battery System

Durable. Reliable. Powerful.

With a single Honda Li-ion battery, you can power any of the different tools within the Honda cordless range. This means that, not only can you swap batteries between tools easily and quickly, but you don't need to keep a different battery for every product you own.

Built to deliver for as long as you need it to, each battery is built on Thermo Smart technology for higher performance and significantly longer battery life. A constant high current provides unwavering performance, whilst an LCD screen* displays the battery life and charge level at all times. Recharging is quiet and fast, thanks to our chargers that can deliver 100% capacity in just 35 minutes.^A

All Honda Li-ion batteries have unique, heat-conducting housings to extend their life, as well as compact casings that can withstand the bumps and knocks they will encounter in everyday use. Crucially, they can be changed in seconds, so you can work without interruption. Honda Li-ion batteries are built for gardeners who need to work all day, every day, until the job is done.

^A36V 4.0Ah battery

LCD Display*

Clear LCD display showing you the remaining charge as a percentage.

Fully Weatherproof*

Sealing of cells enables the battery to be used all year round, whatever the weather.

Thermo Smart Technology

Thermo Smart improves heat dissipation from the inside to the outside of the battery for longer lifetime and runtime. Allows continuous high current draw for all day usage and high performance, even under heavy conditions.

High Performance

Delivers constant power supply throughout battery charge.

Robust construction

The 9.0Ah heavy duty battery has an aluminium sub-frame material and a robust outer casing protecting the inner cells, it can even withstand a 2m drop.

*Only on 36V 9.0Ah DPW3690XA batteries.

NEW

Cordless Lawnmowers

The izy-ON delivers the power and durability that serious gardeners need. Our new cordless range is packed with helpful technologies like single speed transmission and Versamow™ Selective Mulching, which allows you to switch between collecting or mulching grass.

The izy-ON works with the Honda Universal Battery System, which means unrivalled performance throughout the day. It can handle areas of up to 450m²* on a single charge, so you can cut even the largest lawns with confidence - and with a fast charger available, recharging batteries is quick and easy.

*Achieved when using the 6Ah battery. Area capacity depends on grass conditions.

THE RANGE

HRG 416 XB

HRG 466 XB

LAWNMOWER TECHNOLOGIES

Versamow™ Selective Mulching System

With a single lever, Honda's Versamow™ system will either collect the grass cuttings into the bag or finely shred and blow them down into the lawn to create a natural fertiliser.

Cordless

Efficient performance and sustained power thanks to our latest combination of battery and motor technology, so it can keep going as long as you can.

Lawnmower features

Cutter deck height adjustment

Adjusting the cutting height of your grass is effortless by allowing precise control of lowering or raising the deck.

Pressed steel, powder coated decks

The decks are built for durability and performance. They are lightweight for easy manoeuvrability whilst still being hard-wearing and resistant to deterioration from corrosion and UV rays.

Versamow™ selective mulching

Switching between mulching, collecting or discharging is simply achieved by adjusting a lever. There is no need to insert a separate mulching plug when you wish to mulch, this capability is integrated and can be activated or deactivated quickly, easily and safely.

Weatherproof

We know you don't want to stop when the rain starts to fall. That's why our cordless iZY-ON range is safe to use in all weathers. Even the battery has additional weatherproof coating*.

Easy start push button

Start your lawnmower with a simple push of a button that's easily accessible.

*Only on 36V 9.0Ah DPW3690XA batteries.

Driven by a powerful brushless motor and new battery technology, our izy-ON sets the standard for cordless lawnmowers.

Built around a robust steel frame and best-in-class pressed steel cutter deck for outstanding durability, the izy-ON lawnmower features a single-speed* transmission to ensure sustained cutting power at a comfortable walking speed, and because it's lightweight, it can turn in the tightest of spaces.

Built to avoid clogging and reduce maintenance, it includes a high-air flow collection bag to maximise pickup, flexible cutter height adjustment and Versamow™ Selective Mulching*, so it can adapt to any gardener's needs. Certified to IP54 for weatherproof, it lets you cut wet grass in complete safety. You don't even need to stop if it rains.

NEW

Cordless Handheld Range

When the going gets tough, you need tools that work as hard as you do – efficiently, effectively and without needless noise or breaks.

Designed for professionals, our cordless handheld tools are powered by our new Honda Universal Battery System that delivers sustained power throughout its charge. Designed for use in all weather conditions*, they are built for comfortable use over sustained periods and run on a common battery that can be changed in seconds – so you never need to stop for long. Together, the range gives you everything you need to get the job done.

*Only applies when used in combination with the 9Ah DPW3690XA battery.

LEAF BLOWER

Handheld features

High performance

Built to satisfy the needs of professionals, our battery-operated handheld tools deliver the performance and durability you need, from the moment you begin, to the end of the job.

Fully weatherproof

We know you don't want to stop when the rain starts to fall. That's why our cordless handheld tools are safe to use in all weathers when used with the 9Ah battery, which has a weatherproof coating.

Power for professionals

Built to deliver full power throughout their charge, our interchangeable, fast-charging 9Ah batteries use a clever Thermo Smart technology allowing you to work for longer. Robust enough to withstand a 2m drop, they also feature an LCD display showing you the remaining charge.

Honda Universal Battery System

Our products run on the most advanced battery system in its class. With casings that can withstand real-life rough treatment, all batteries can be changed quickly and used to power Honda's new cordless range.

Comfortable to handle

We know you need to be able to use your tools comfortably for hours on end, which is why the brushcutter includes an adjustable harness and a new bike handle for extra comfort.

The hedgetrimmer comes with a handle that can be adjusted for use at different angles and the leafblower features a belt mounted battery to reduce weight.

When you need to tame the toughest undergrowth, you can count on our cordless brushcutter. Powered by a 36V brushless EC motor with direct drive to the cutting head, it delivers sustained power during use, with no need for servicing.

The brushcutter is based on the Honda Universal Battery System, so the battery can be swapped out in seconds. Combined with the incredible performance of Honda's Li-ion batteries, this means you can work right through the day without taking forced breaks.

Safety is paramount, so the blade releases automatically if it jams, preventing the motor from stalling. With IPX4 certification*, you can use even use the brushcutter in wet weather, making it indispensable all year round.

Designed for all-day comfort, the brushcutter is based on a lightweight design. A new ergonomic bike handle and adjustable harness come as standard and because it's battery operated, vibration and noise levels are low, making it ideal for early starts and late finishes.

*Achieves this rating only when used with the 9Ah DPW3690XA battery.

Built to deliver for longer

HHT 36 AXB

HHT 36 AXB

Cordless hedgetrimmer & leaf blower Stop at nothing

Our cordless hedgetrimmer and leaf blower make light work of your outdoor tasks. Both run on brushless EC motors, built to deliver all the power you need. And because they are certified to IPX4 for water-resistance*, they are usable all year round.

The hedgetrimmer features hardened Swiss steel and double sided roughing blades, so you can power through the most stubborn foliage, and a rotatable rear handle makes for comfortable use at any angle.

The leaf blower can operate at variable speeds with interchangeable nozzles, so you can blast through dry, wet or heavy debris – whatever the job demands. Its belt-mounted, quick-release battery can be adjusted for left or right-handed use, making the tool itself even lighter to use.

*Only when used in combination with the 9Ah DPW3690XA battery.

HONDA

AUTHORISED DEALER

SALES SERVICE EXPERTISE

You deserve complete confidence that you've made the right choice, long after you've made the purchase. That's why we appoint our Honda Authorised Dealers with as much care as we build into our products.

Look for the seal of quality when you buy your Honda, or call **0345 200 8000**** and we'll find the closest to you.

Sales

Our Authorised Dealers not only feature a comprehensive display of Honda products to see and touch, but they know our product range inside-out. Every one follows an extensive Honda training programme with regular refresher courses – so you can trust in their valuable advice and experience to help you choose the product that's just right for you and your needs.

Service

As well as offering the highest levels of after-sales service, our Authorised Dealers' factory-trained technicians perform a full Pre-Delivery Inspection (PDI) on every machine, and are fully equipped to keep your product in peak condition with cost-effective servicing. Of course, you can also be assured that only high quality, genuine Honda parts are used, with access to our 24hr parts delivery service for fast and efficient turnaround.

Expertise

Our Authorised Dealers are true experts in their field, often with years of first-hand experience under their belt. In fact, their knowledge and experience plays an important role in making sure that our Research and Development team is given feedback from our customers, so we can ensure that new and improved models continue to meet your future needs too.

Unrivalled quality, for peace of mind

There's a simple reason why you'll see so many old Honda products still in use. **Ours are built better, to last longer.**

That's not just an idle promise. It's fact. Our enviable reputation for durability and reliability is supported by our cast iron warranty, covering both parts and labour.

Our warranty maintains the same value throughout its lifetime too – meaning the last day of cover is exactly the same as the first: solid and dependable.
